

Wyoming Care Management Entity High Fidelity Wraparound: WFI-EZ

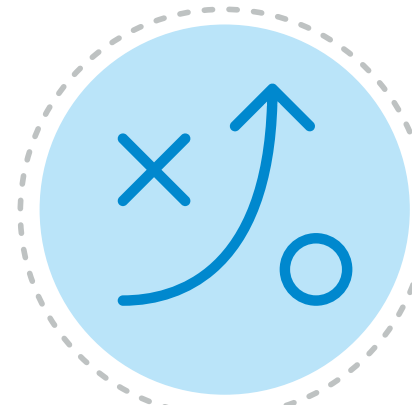

Wyoming Care Management Entity High Fidelity Wraparound is a process that brings people together from different areas of a family's life to form a team. The team creates steps to help youth stay in their homes, schools and communities. Wyoming Care Management Entity High Fidelity Wraparound is guided by the following principles:

Family voice and choice

Culturally competent

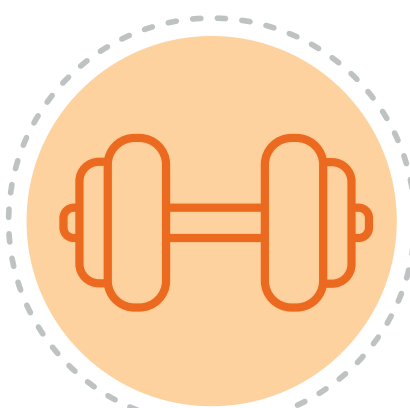

Team-based

Individualized

Natural supports

Strengths-based

Collaboration

Unconditional care

Community-based

Outcome-based

For a more in-depth overview of HFWA, visit the [Magellan in Wyoming site](#).

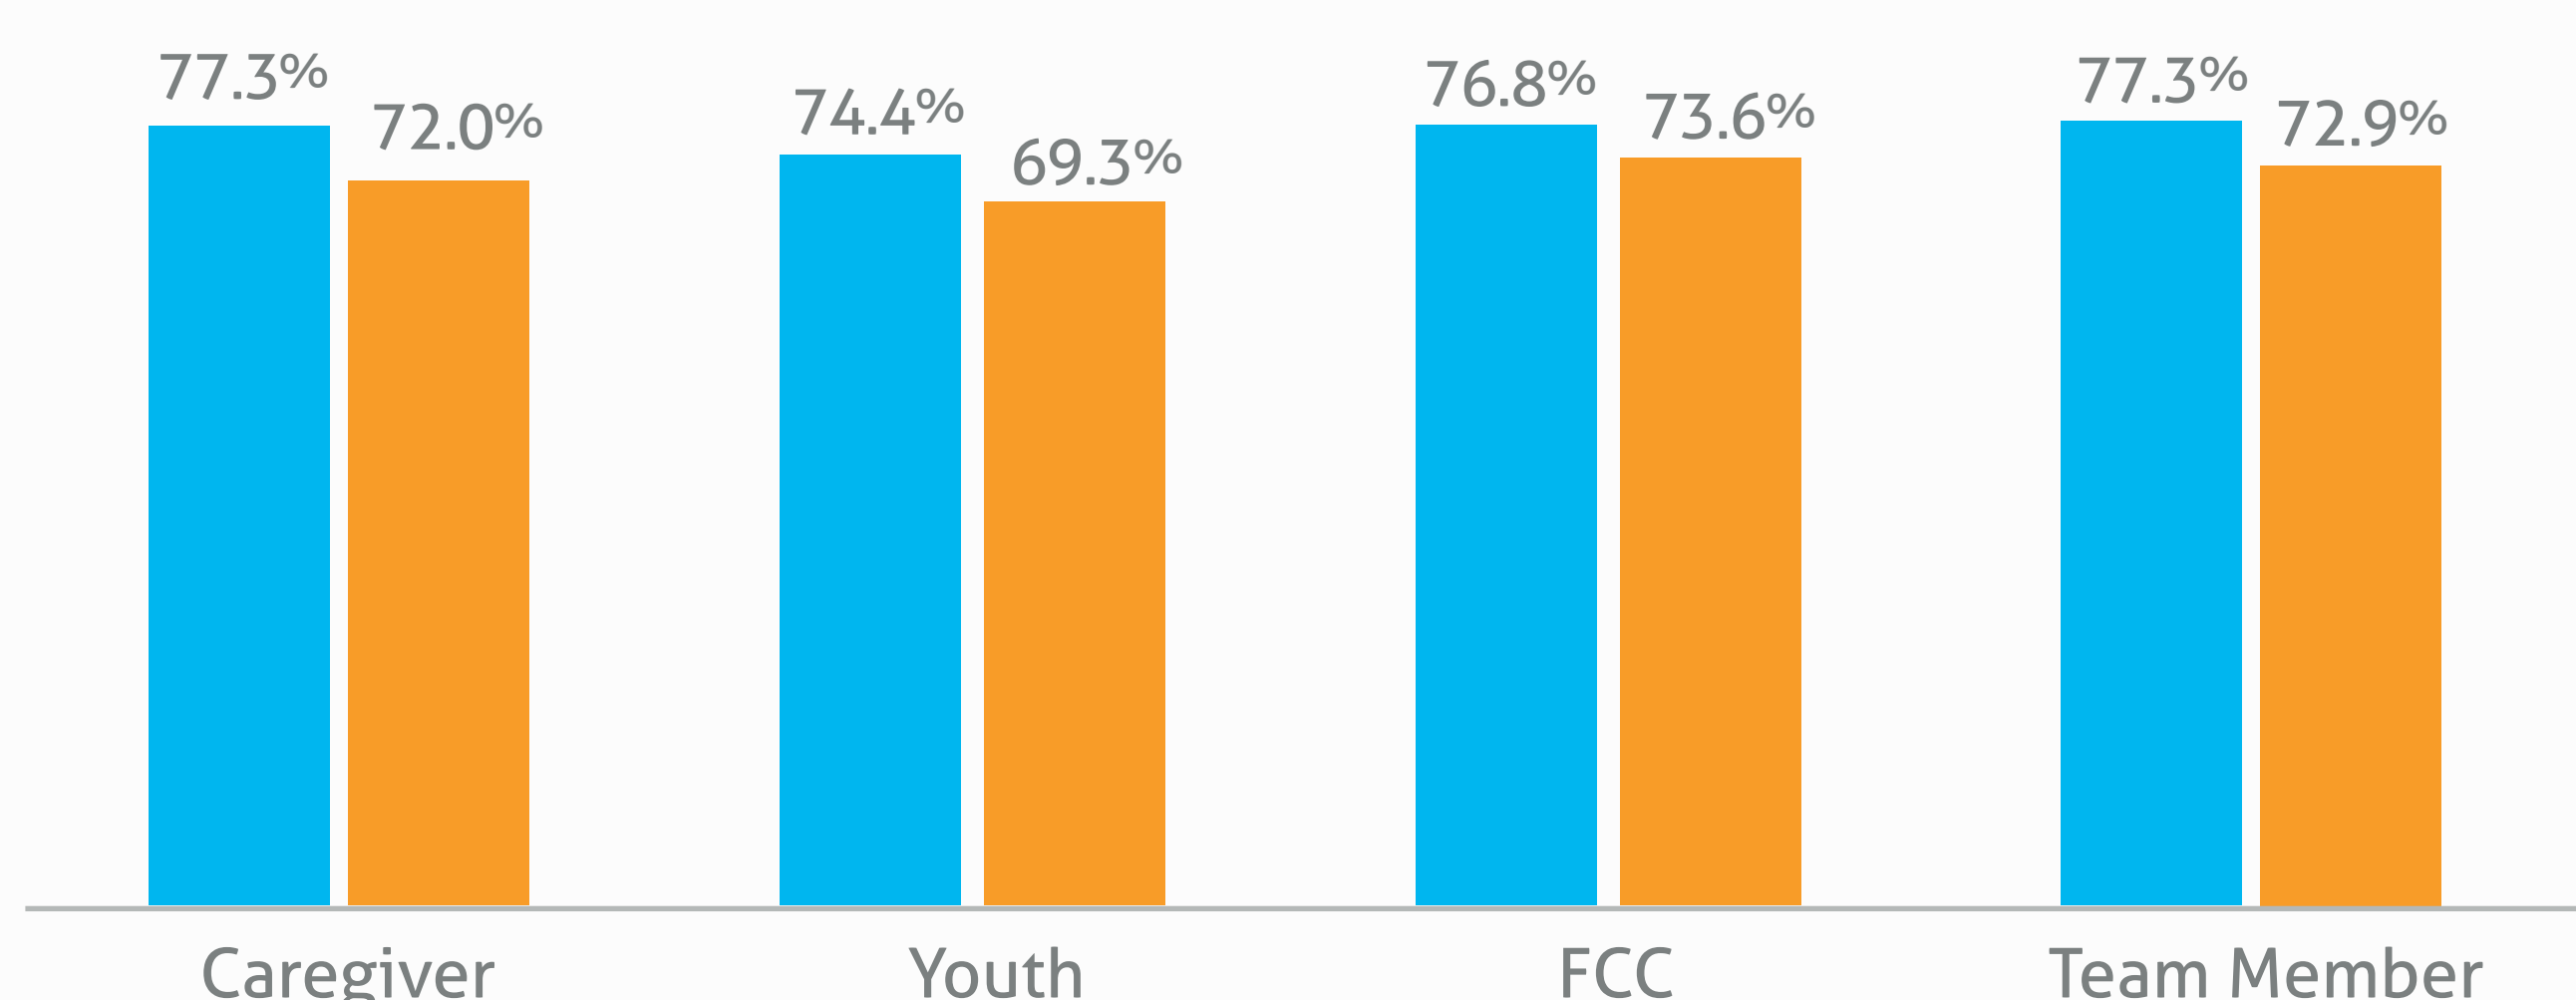

The Wraparound Fidelity Index, Short Form (WFI-EZ) assesses how well wraparound services align to the 10 core principles of the wraparound model defined by the National Wraparound Initiative. The WFI-EZ also explores youth and family service satisfaction and outcome success.

WFI- EZ results based on responses from caregivers and youth who have participated in Magellan of Wyoming's HFWA program demonstrate consistency in strengths for all roles with all elements either exceeding or meeting the National Means. These results indicate high rates of fidelity to the program and principles of High Fidelity Wraparound.
